

CLAIM AMENDMENT

1-5. (cancelled)

6.(new) A method of television broadcasting comprising the steps of:

providing plural entertainment programs for broadcast to a receiver, each entertainment program having image signals and sound signals;

mixing the sound signals of the plural entertainment programs using a computer executable code;

broadcasting the image signals and mixed sound signals for the plurality of entertainment programs on one channel of a first broadcasting band to the receiver;

broadcasting the computer executable program in a second broadcasting band which is different from the first broadcasting band to the receiver;

selecting one of the plurality of entertainment programs for display at the receiver;

using the computer executable program to provide the sound corresponding to the selected one of the plural entertainment programs.

7. (new) The method of Claim 6 wherein the computer executable program is broadcast in advance of the image and mixed sound signals.

8. (new) The method of Claim 6 wherein the broadcasted image and mixed sound signals are digital signals.

9. (new) The method of Claim 6 wherein the broadcasted image and mixed sound signals are encoded in MPEG format.

10. (new) The method of Claim 6 wherein the first broadcast band is the streaming band and the second broadcast band is the data broadcast band.
